

Donate to PSC Partners Seeking a Cure

Because every PSCer deserves a super life!

PSC Partners Seeking a Cure is a 501(c)3 non-profit foundation dedicated to advancing awareness of and finding better treatments and a cure for Primary Sclerosing Cholangitis, a rare, incurable liver disease that can strike anyone of any age at any time. There is no known treatment for PSC other than liver transplant, and even then PSC all too often recurs. Please help support the world's best and brightest scientific minds in figuring out better treatments and a cure for PSC so that we can all celebrate our tomorrows together. Every single dollar makes a real difference. Find out more at www.pscpartners.org/waystodonate.

- All donations are tax-deductible
- Please mail your checks made out to PSC Partners Seeking a Cure to:

PSC Partners Seeking a Cure
5237 So. Kenton Way
Englewood, CO 80111

We welcome and appreciate donations of any amount to support our programs. Except for our annual conference, all of our educational and support programs are offered free of charge to everyone. Thanks to the volunteer nature of our foundation, we have been able to keep our administrative expenses at 2.4% (2009) in order to direct your contributions directly to research grants and patient services. We're serious about finding a cure for PSC and your contribution will bring us closer to our goal. Thank you from the bottom of our livers!
